SUBJECT: Daily Progress Report for Tuesday, 3 February 1953

**BGFIEND**

The four-man Zogist team operating in the mountains northeast of Tirana reported that the W/T operator and two parachutes dropped on the night of 29 January landed safely. The team is changing its position. In this, the first contact made by the new W/T operator, all communications control signals were negative and the message began with a prearranged negative control sentence. This confirms previous evidence that the team is uncontrolled and that evidence to the contrary was the result only of injuries to the former W/T operator which forced him to send with his left hand.
